

Chapter Meeting Icebreaker: FCCLA Trivia Match-Ups

1. Print the match-up cards and cut them apart along the dotted lines.
2. Give each member a card. Half of the members will have question cards, and the other half will have answer cards.
3. Have members walk around the room and find their corresponding match. Once a person finds their match, they should introduce themselves to their partner. Partners can begin their introductions by saying their names and sharing a location they've always wanted to journey to.
4. After everyone has found their match, ask each person to introduce their partner to the rest of the group.
